

# Factsheet

Till January 2026

- Novatr is a global edtech platform for **AEC professionals**, offering technology-led programs to build future-ready skills
- Founded in 2021, **Novatr bridges traditional AEC education with emerging technologies**, enabling learners to become job-ready
- Novatr aims to make AEC technology more accessible through a platform that provides **tools, tech, and mentoring for everyone**.
- The **key focus areas** are improving platform infrastructure, innovating learning pedagogy, developing new-technology programs in AEC, and expanding the team.
- Novatr offers an immersive community learning program that brings together cohorts of up to **500 individuals from over 50 countries**.
- Novatr aims to build more courses to **expand the B2B offerings** for architecture firms, infrastructure firms, and real estate companies.
